INAUGURAL STEP MADE IN CUBA

Gov. Magoon Presents Diplo-
mats to President-Elect
General Gomez.

Savannah, Ga., Jan. 1.—The inaugu-
ral step toward the re-establishment
of the Cuban republic was marked with
the New Year's reception at the palace
today when Governor Magoon, formally
presented the diplomatic representa-
tives and consular representa-
tives, the judges of the supreme and
minor courts, the presidents of the
central guilds, the representatives of
the foreign and native press, the offi-
cers of the Cuban armed forces and
many prominent citizens to the presi-
dent-elect, General Jose Miguel Gomez,
and to the vice president-elect, Alfredo
Zayas.

Governor Magoon said:
The exactness in keeping the prom-
ises of President Roosevelt in behalf of
the Cuban people to restore Cuba to
the exercise of self-government im-
presses us with a sense of the high
moral significance of the government
which conferred upon you this difficult
and high mission and fills with joy the
hearts of the Cuban people. Our sin-
cere and best wishes accompany you
in the government finds an
adequate place to utilize your serv-
ices for turning over the
administration of the government to the
people. The government is practically
complete. Not the least disturbances
in the governmental functions will at-
tend the transfer of authority when
General Gomez takes the inaugural
oath at noon on January 28.

BY WHEELBARROW IN CHINA.

Passengers Go 20 Miles a Day
for Ten Cents Each.

Probably more freight and more
passengers are transported in China
the wheelbarrow than by any other
method. The wheelbarrow used
in China differs from that used in
other countries in the fact that the wheel
is in the center and thus supports
statically the entire load, while the
wheels are supported in part by a
pole or rope over the shoulders of
the man who operates it.
As a result the coolie in China will
support nearly half a ton on his
back. Wheelbarrows are much used
in the country where the roads are
little developed, and I have heard
passengers sometimes make the
trip from Shanghai to Peking, a
distance of 600 miles, by barrow.
Two-passenger barrow will make
20 miles a day, and the coolie
content with a pay of about 20 cents
a day, or an average of about half a
cent a mile for each passenger.
On the level, well-kept streets of
the foreign quarters of such cities as
Hongkong, Shanghai and Peking the
wheelbarrow coolie will struggle along
with a load of six or even eight people.
—Washington Herald.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and a clean, healthy tissue. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts. He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no opium, and is perfectly safe. Constipation is the enemy of clean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They are easy to take as candy.

GOVERNMENT CHIEFLY CONCERNED IN PROGRESS OF RELIEF MEASURES

Various Sections of Coast Allotted to Warships From Which Rations and Water May Be Distributed to Different Villages, Systematic Search of Ruins Impossible, Slight Shocks Complete Crumbling of Buildings, Prof. of Mt. Aetna Observatory Estimates Loss to Exceed Two Hundred Thousand.

Rome, Jan. 1.—Although graphic stories are coming into Rome of the horrors in southern Italy and Sicily, they are but repetitions of individual tragedies that are recorded. What chiefly concerns the government and the people is the progress that is being made toward the relief of those who have suffered by the dreadful visitation. Considerable advance in this respect has been made at Messina, where, according to official reports received here, the supply service is beginning to work satisfactorily. The different regions of the coast have been allotted to various warships and other ships as centers from which torpedo boats and launches may distribute rations and water to the different villages.

The minister of justice has telegraphed from Messina to Premier Giolitti that large bodies of troops have arrived and are now occupying all parts of the town. The appalling extent of the disaster renders anything like a systematic search of the ruins impossible, but persons are being dragged out continually and are being transported to the relief ships as soon as their wounds are attended to.

Slight shocks were felt in the earthquake zone today, completing the ruins of the crumbling buildings. These shocks keep up the alarm among the population. One quite severe shock was felt at 3 o'clock in the morning, and another at 9 o'clock. Fires are still burning, although much rain has fallen. The latest investigation on both sides of the strait make it certain that more than half the population of the coast towns and villages have been killed. Prof. Ricco, director of the observatory at Mount Aetna, estimates that the victims of the earthquake exceed 200,000.

Hundreds of dangerous criminals have been arrested by the troops and are under close guard. Great relief was felt here when the announcement was made that the Lipari Islands, which were reported to have disappeared with their population of 28,000, suffered little or no damage from the earthquake. Public opinion is greatly concerned with regard to the safety of the king and queen, and the possible danger from tottering walls. The king frequently has tried to persuade the queen to return to Rome, but she has always refused, declaring that she would break her heart to abandon her husband.

New Year's day in Italy is usually a day of rejoicing as widespread as on Christmas. Imposing ceremonies are celebrated in the churches. But these ceremonies and the festive spirit are wanting today. Instead, there were lamentations. The flags waved at half mast and the bells of a thousand churches rang, not for the dead, but to toll sad knells for requiem masses.

King Emmanuel has been indefatigable. He has shown wonderful activity and endurance, leaving no point in Messina unvisited. He has supervised the entire work in the fallen city, and his presence has infused new courage and energy into the rescuers. Often he is surrounded by a crowd of victims who enthusiastically shout, "We have a protector"—a touching feature.

PILES CURED IN 6 TO 14 DAYS
FAGO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days or money refunded. 50c.

SAILBOATS CROSS THE STRAIT

Refugees Have Frightful Experience in Getting Away From Sicilian Coast.

Monteleone, Jan. 1.—The experience of a band of refugees from Messina and Reggio, who made their way on foot into Palermo, is distressing beyond words. The Messina refugees succeeded in getting away from Sicily in small boats. After a frightful experience in crossing the straits they landed on the Calabrian coast. Here they were met by haggard refugees from Reggio and the various groups of unfortunate joined forces. Together they painfully climbed the hills. At a certain point they all turned to give a last look at the burning city. They stood on the mountain side, plunged in despair. A young priest who had escaped from Reggio, advanced toward the group, some 2,000 persons in all, and blessed them. Then turning in the direction of Reggio, he solemnly called down the blessings of God upon the devastated city. "Peace to the dying," he cried; "peace to the dead."

Men, women and children knelt on the ground and raising their hands to heaven, prayed for the deliverance of the multitude. The band then took up its broken and tattered march to Palermo, where

the refugees arrived ten hours later in a torrent of rain. Two thousand had set out in the beginning, but only 500 ragged and emaciated wanderers reached their destination. The others had succumbed on the awful journey and fallen powerless by the wayside.

More appalling than the destruction of the towns and villages themselves is the terror of the survivors. The spectacle is horrible. The wounded, bleeding, ragged refugees are human skeletons who stagger here and there, dragging their bruised feet with efforts and staring vacantly in all directions. Those less afflicted tell contradictory stories, some tell only of the tragedy of which he personally was the victim. It would be useless to revert to the story of the destruction of the towns. They are exceeded by the horror of the present.

Dr. Castellino, who is charged with the direction of relief from Reggio, declares that the question of the survivors is more harassing than the question of the dead. The government army and marines, mighty as are their efforts, remain impotent before the immensity of this misery. Money is without value. The indispensable need is food, clothing and tents for shelter. These must come quickly. Each day's delay increases the list of dead.

NOTICE TO WATER USERS.

State Engineer's Office,
Salt Lake City, Utah, July 23, 1908.
Notice is hereby given that the Ogden Water Works company, by its manager, C. H. Kirchner, whose post office address is Ogden, Utah, has made application in accordance with the requirements of Chapter 108, Session Laws of Utah, 1905, as amended, by the Session Laws of 1907, to appropriate ten (10) cubic feet per second of water from springs in Taylor's Canyon, Weber County, Utah. Part of said water will be diverted from a spring which is situated at "point of diversion" No. 1, which bears north 42 degrees 21 minutes west 2113.3 feet distant from the east quarter corner of Section 35, Township 6 north, Range 1 west, Salt Lake base and meridian. Part of said water will be diverted from a spring which is situated at "point of diversion" No. 2, which bears north 71 degrees 3 minutes east 1540 feet distant from the land corner above described. Part of said water will be diverted from a spring which is situated at "point of diversion" No. 3, which is 3,496.6 feet south 61 degrees 51 minutes east from the above described corner. Part of said water will be collected from a spring which is situated at a point bearing north 42 degrees 21 minutes west 2820.6 feet distant from the point first above described; also from numerous small springs adjacent thereto and conveyed to "point of diversion" No. 4, which bears north 74 degrees 4 minutes east 2,532.2 feet distant from the quarter corner above described, where it will be diverted. At "point of diversion" No. 5, which bears north 51 degrees 33 minutes east 1,427.7 feet distant from the land corner above described, a part of said water will be collected from small springs situated in a side canyon which enters the main canyon at a point northeast of the point of diversion. At "point of diversion" No. 6, which bears south 55 degrees 53 minutes east 5,233.8 feet distant from the land corner above described, the water which flows from a spring situated about 100 feet east of said "point of diversion" will be diverted. The remainder of the water applied for will be diverted at "point of diversion" No. 7, which bears south 69 degrees 7 minutes east 3,464.2 feet distant from the land corner above described, at which point the water from numerous small springs situated in two canyons which form the main canyon is to be collected and diverted. The water from the various sources above described will be collected and conveyed to a point near the west line of Section 36, township 6 north, Range 1 west, Salt Lake base and meridian, where it will be conveyed for about 20,000 feet by means of a pipe line to the reservoir of the applicant situated east of Ogden City.

Stockholders' Meeting.
Notice is hereby given that the annual meeting of the stockholders of the Standard Publishing Co. will be held at the office of the company, No. 260 24th street, Ogden, Utah, Monday, January 11th, 1909, at 2 p. m., for the purpose of electing officers for the ensuing year and transacting such other business as may come before the meeting.

D. T. TRACY,
Secretary.

Dated Ogden, Utah, December 2, 1908.

NOTICE.

Regular annual meeting of the shareholders of the First National Bank will be held at their banking room at Ogden, Utah, Tuesday, the 12th day of January, 1909, at 10 o'clock a. m., for the purpose of electing directors to serve for the ensuing year and for the transaction of such other business as may properly come before the meeting.

Ogden, Utah, December 21, 1908.

NOTICE.

Regular annual meeting of the shareholders of the Ogden Savings Bank will be held at their banking room at Ogden, Utah, Tuesday, the 12th day of January, 1909, at 10 o'clock a. m., for the purpose of electing directors to serve for the ensuing year and for the transaction of such other business as may properly come before the meeting.

Ogden, Utah, December 21, 1908.

Women Fishermen.

On the coast of Holland, Belgium and Northern France the fishermen are a familiar sight, with their great hand nets and quaint costumes. Many of the towns have distinctive costumes by which their women can be recognized anywhere. Those of Manakirke, near Ostend, wear trousers and loose blouses, while their heads and shoulders are covered by shawls. They carry their nets into the sea and scoop up vast quantities of shrimps and prawns, with an occasional crab or lobster and many small fish. They often wade out till the water is up to their necks, and they remain for hours at a time in water above their knees, rarely returning until their baskets are full.

The Sunflower.

In some countries, notably in the Russian provinces north of the Caucasus, the sunflower serves other purposes besides ornamenting gardens with its huge golden bosses. The seeds are used to make oil, which is employed both in the manufacture of soap and cooking. The stems and leaves are burned and the ashes used to make potash. Last year the sunflower factories of the Caucasus produced 15,000 tons of potash.—Youth's Companion.

His Somnolent Influence.

"I have been told," said Brother Dickey, "that my sermons put folks to sleep; but that's all right. They isn't doing any harm whilst they is asleepin; they dey'll wake up fast enough w'en dey devil blows a fire under 'um!"—Atlanta Constitution.

Wills Widow to Convert.

A curious provision is made in the will of Michael Hammore, an Irish solicitor, who left nearly \$40,000. He bequeathed \$5,000 to the Mother Superior of any convent his wife should enter after his death, it being his desire that the widow should devote the remainder of her life to prayer. If she declines to enter a convent she is to receive only some jewelry.

Extends Gutta Percha Supply.

Reports received from the Black sea coast and the Caucasus affirm that endeavors to cultivate and naturalize there the Indian rubber tree known as "dichopsis gutta" are proving eminently successful. Considering how very restricted is the geographical distribution of gutta percha trees, great importance is attached to this discovery.

GOVERNOR HUGHES AGAIN INAUGURATED

Albany, Jan. 1.—Governor Charles E. Hughes was today inducted for a second term as chief executive of New York. Among the guests on the platform were the governor's parents, Rev. David C. and Mrs. Hughes.

The Inauguration Ceremony

was preceded by a military parade which was reviewed by Governor Hughes. "Government is merely an organ of the community to secure a basis of peace and order essential to individual liberty and opportunity, and also to maintain the collective rights which can not otherwise be safeguarded. Our dependence for progress is not chiefly upon governmental agency, but upon the virtues of sobriety, industry, thrift and moderation, upon the realization of our mutual dependence and upon the gradual supplanting of motives of mere self interest by those inspired by the appeals of the brotherhood."

Far Below Capacity.

The capacity of the Atlantic cable is 300,000,000 words annually. Only 25,000,000 are sent.
